Dear Sirs,

**SCOTTISH TRUNK ROAD NETWORK MANAGEMENT CONTRACT – SOUTH EAST UNIT  
M9 JUNCTION 9 NORTHBOUND ON-SLIP – OVERNIGHT RESURFACING WORKS**

BEAR Scotland, acting on behalf of Transport Scotland, are planning to carry out resurfacing works on the northbound on-slip of the M9 at Junction 9 to address areas of deteriorated carriageway. The works have been programmed to commence on Monday 28<sup>th</sup> April for 5 nights between the hours of 19:30 – 06:00 each night. Works are expected to be completed by the morning of Saturday 3<sup>rd</sup> May at 06:00.

To ensure the safety of the workforce and members of the travelling public it is necessary to close the M9 in the northbound direction from Junction 9 till the M9/M80 merge.

During this period of closure, a signed diversion route will be in place, directing affected traffic off the M9 at Junction 9 off-slip towards A91 where they will join Stirling Council's planned diversion route from Millhall Roundabout (via A905; A9 & B823). Traffic will rejoin BEAR's diversion on the A9 in Bridge of Allan before returning to M9 at Junction 11 (Keir Roundabout) for onwards travel. A location plan showing this diversion route is attached. The M80 northbound carriageway as well as M9 Junction 10 will both remain open. Access for emergency vehicles will be maintained at all times and all traffic management will be removed out with working hours.

The safety of maintenance workers remains a top priority during these essential projects with protocols in place to ensure all on-site personnel remain safe throughout the duration of the project. Robust risk assessments have also been completed to ensure all staff are kept safe.

If you require any further information or would like to comment on any of the proposed works, please do not hesitate to contact Callum Loughhead by email at [SEConsultationroads@bearsotland.co.uk](mailto:SEConsultationroads@bearsotland.co.uk).

Yours faithfully,

For **BEAR Scotland Limited**
